## Clean City Commission Memorandum

**To:** Kingman Clean City Commission  
**From:** Rich Ruggles, Staff Liaison  
**Date:** October 18, 2012  
**Subject:** **ITEMS #3a: Public Awareness Campaign and Incentives to Encourage Use of Reusable Grocery Bags and to Reduce Windblown Trash**

The Public Awareness and Beautification Subcommittee have held several meetings to discuss how to inform and encourage residents to use reusable grocery bags. The goal is reduce the use of plastic bags which contribute to the windblown trash problem in Kingman.

A survey was distributed to local stores to determine the recycling measure being undertaken, and what incentives the stores provide or would be willing to provide to encourage recycling and the use of reusable bags.

On July 26, 2012 the survey was mailed out to 22 local merchants with a deadline date of August 31, 2012 for a response. Only four surveys were returned.

A second follow-up survey was mailed to 18 stores that failed to respond to the first survey. Also additional 12 convenience stores were added to the survey list. See attached list of stores.

Any new information from these surveys will be discussed at this meeting.

## Kingman Clean City Commission Kingman Area Store Survey

The Kingman Clean City Commission is searching for methods to combat the on-going problem of windblown trash in our community. A significant portion of this unsightly windblown litter is composed of items from local stores such as plastic bags, sanitary wipes, newspaper ads and other paper and plastic products. Oftentimes customers will leave such items in shopping carts which then are blown away by our strong winds. The CCC is looking for ways to reduce the problem of windblown trash, by partnering with and encouraging local store merchants to be part of the solution to this problem.

To that end we are asking for your help in participating in a Kingman-area store survey regarding the usage of plastic bags, sanitary wipes, and trash disposal availability at your store. We are also looking for information on what your store is doing to encourage the use of alternatives to plastic bags such as reusable canvas or cloth bags. The results of the surveys will be compiled for the use of the Clean City Commission and will be made available to the public for informational purposes.

## Clean City Commission Memorandum

**To:** Kingman Clean City Commission  
**From:** Rich Ruggles, Staff Liaison  
**Date:** October 18, 2012  
**Subject:** **ITEM #3b: Discussion of Possible Mural and Other Beautification Measures Targeted at I-40/E. Andy Devine Interchange**

The Public Awareness and Beautification Subcommittee have had several meetings to discuss various beautification measures including possibly painting a mural on the concrete walls below the I-40 Bridge at the E. Andy Devine interchange.

Discussion has included the following issues:

- ADOT has agreed to allow the City to use prison labor to clean-up the areas around the interchanges on a periodic basis.
- Possible mural ideas include a Route 66 theme with emphasis on travel images and historic figures in the area. We will need to determine whether the paint will adhere to concrete abutments at interchange. Sherwin Williams is being consulted.
- We will need ADOT approval for murals as well as a plan for continuing maintenance.
- The Tourism Development Commission should be involved in this idea. We should approach the TDC as a commission with this idea.
- The CCC may be able to work with the Coalition Youth Team (COYOTE) with Jen Miles to do the painting of the murals.

Any progress on this item will be discussed by the commission.
